

REGENCY DOG KENNEL

The Regency Dog Kennels have been manufactured for strength and durability, made from industrial thermoplastic and aluminium, these are built to last.

Tools Required: Phillips Screwdriver & spanner

Contents:

- 12 x 15mm screws (3 for each corner of the cabin)
- 1 x Sloping side panel (L/H side)
- 1 x Sloping side panel (R/H side)
- 1 x Back panel
- 1 x Roof Panel
- 1 x Base floor board
- 1 x Draught board
- 1 x Support Brace (under floor) plus 2 x bolts

Assembly Instructions

- Place all your sections out ready for assembly
- Screw the sloping side panels on to the front panel, slot into corner section.
- Screw on the back panel (repeat the above instruction) and align with the top
- Screw centre lower brace in position – there is a hole in the middle of the front and back panel for the bolt to go through.
- Drop the floor board into place
- Place the roof panel into place and align
